The Studio Theatre at cSPACE

Versatility meets sophistication at the two-storey Studio Theatre, an intimate and unique space designed for flexibility and user-friendliness. Nestled within the historic walls of cSPACE Marda Loop, this venue seamlessly transforms to suit your event needs, offering a unique blend of modern amenities and century-old charm.

Unparalleled Versatility

Embrace the transformative nature of the Studio Theatre, where a century-old sandstone feature wall sets the stage for a light-filled event space. In a matter of minutes, the venue can be converted into a fully darkened performance space, thanks to the innovative design that includes retractable seating, a sprung vinyl floor, and a vertical-drop acoustic wall to effortlessly divide the space.

Catering Support and Comfort

An attached Green Room, complete with a shower and in-room sink, provides not only a catering support area but also secure storage and a retiring room for presenters and performers. Some packages include additional features like a rolling bar + Red Room (great for coat check and lobby bar) and outdoor courtyard with twinkle lights.

Technical Excellence

Unlock the full potential of the Studio Theatre by booking a cSPACE technician. Enjoy support for theatrical lighting, video, sound, and/or livestream and recording systems. (additional charges apply). The dedicated control booth, ensures a seamless and professional production.

TECHNICAL FEATURES

Full specs available for download on the website.

General Features

- A motorized Skyfold wall is available to split the Studio Theatre into two spaces. The wall has an STC rating of 54 for acoustic mitigation and a black fabric finish.
- The Studio Theatre is equipped with a sprung wooden floor with a dark-grey vinyl surface.
- The schedule 40 pipe grid is set at 6000mm (19' - 8") above the finished floor, and is spaced evenly at 1500mm (5' - 0").
- There are 15 one-tonne rigging strong points. They are rated to 900kg (point load, with 25% impact factor).
- The Studio Theatre has natural light with blackout capability, motorized external louvres for energy efficiency, blackout blinds, and velour drapes.
- Additionally, loose drapes are available including Velour Leg Panels and Velour Border Panels.
- Note that there is no in-house rigging equipment or extensive rigging expertise.

Theatre Lighting

The Studio Theatre comes with an array of lighting options for you to choose from.

- With Crestron/Paradigm consoles, you can easily control the LED color-changing DMX house lights, and the sandstone feature wall lights.
- Theatrical lights are arranged in a house plot configuration of 9 areas in the South and 3 additional wash areas in the North.
- Please note that any changes to the house plot will be the responsibility of the client, including return to default. Contact us to schedule a technical assessment.

Cinema Projection

Projection infrastructure for multi-format content screening. Two screens available. HDMI and analog VGA video inputs. Crestron touchscreens for video signal routing. Dolby integrated media server for DCP content.

Cinema Sound Equipment

The Studio Theatre is equipped with a Dolby CP750 Digital Sound Processor delivering 7.1 surround sound through 11 wall, grid and ceiling mounted PK speakers.

The Studio Theatre AV system is designed and built to be easy to operate for basic use, while also provisioned with specialized AV equipment that requires technical support.

ADDITIONAL SUPPORT AND EVENT SPACES

Below are spaces that can support events in the Studio Theatre, or be booked separately for other events.

Red Room

The Red Room is a small support space that can be used as a bar, coat check, or storage space. Located next to the Level 1 corridor.

- Immediate access to AV control for the hallway
- Approximately 50 square feet of usable area
- Climate-controlled piano crypt
- Small bar fridge and keg fridge

Green Room

A backstage space for dressing rooms, catering, and meetings.

Amenities Include:

- Direct access to the Studio Theatre
- Sink and a fully accessible unisex washroom with shower
- Program sound speaker, wall-mounted volume control outlet box, and Clearcom connection
- Plastic tables and chairs are provided for dressing stations with wall mount mirror and power receptacles
- Pipe and drape from the theatre may be available for light lock or dividing the space if not in use
- Rolling coat racks available
- Small bar fridge

Note: Makeup stations and full-length mirror not currently available.
